East Java, Banyuwangi

I am a 22-year-old Informatics student at the Faculty of Computer Science, Universitas Jember. With a strong passion for front-end development and editing video, I am highly motivated to grow and expand my skills. I have experience in organizational activities and enjoy exploring new opportunities.

## Education

### University Jember - Jember, Indonesia

Aug 2022 - Jun 2026 (Expected)

*Undergraduate in Department of Computer Science - Informatics, 3.62/4.00*

- Web Programming: Passionate website development using HTML, CSS, JavaScript, and PHP, focusing on building CRUD-based web applications while implementing the MVC concept, and utilizing frameworks such as React.js and Laravel.
- Object Oriented Programming: learning the object-oriented programming paradigm using the C# language with the output of making desktop-based CRUD programs using the .NET framework
- Functional Programming: learning the functional programming paradigm using the python language with the output of making CLI based CRUD program
- Database System: learn about the basic database system starting from tables using MySQL

## Experience

### Himpunan Mahasiswa Informatika - Jember, Indonesia

Dec 2022 - Present

*Head of Content Creator*

HMIF is a student organization at the informatics study program level formed by informatics study program students which was established in 2018 and carries out activities that support academic and non-academic within the scope of the informatics study program which are executive, aspirational and advocative. HMIF functions as a forum for communication, unification, exploring and developing the potential of its members to create students who excel in science and technology

- Script Writing: Developed video concepts, from story flow and dialogue to camera angle direction, for all content production.
- Content Planning: Designed and managed content calendars across all social media platforms to streamline upload schedules and monitor content progress effectively.
- Video Editing: Managed the post-production process, including footage selection, color grading, transitions, and effects to align with the creative concept.
- Successfully conceptualized a short film for new staff recruitment
- Set a record for producing 7 videos in a single day
- Achieved a significant increase in followers and viewers within 3 months

### Mascitra Teknologi Indonesia - Jember, Indonesia

Mar 2025 - Jul 2025

*Front-End Developer*

MasCitra.com is an Indonesian IT and software consulting company that focuses on providing integrated solutions, planning, and strategies in the field of Information Technology. We are committed to delivering maximum added value by addressing various needs and challenges in the IT sector.

- Designed responsive and visually appealing website interfaces according to project requirements.
- Transformed Figma UI designs into static and dynamic web pages through slicing.
- Utilized HTML, CSS, JavaScript, and Bootstrap for front-end development.
- Collaborated with the backend team in developing Laravel-based web applications.
- Ensured consistent user experience and interface across all website pages.
- Conducted cross-browser testing to maintain compatibility and optimize performance.

### Capstone Project - Jember, Indonesia

Aug 2024 - Nov 2024

*Front End Developer*

The Capstone Project is a faculty-led initiative in collaboration with real clients, allowing students to experience real-world work environments and challenges firsthand

- I was responsible for the frontend development, implementing Figma designs into responsive and interactive web pages using React.js

## Committee/Volunteer Experiences

### I/O (Informatics Olympiad) - Jember, Indonesia

Mar 2024 - Oct 2024

*Head of Committee*

An Informatics Olympiad at the high school level, attended by 81 participants from all over Indonesia and participated by high schools

- Develop concepts for events to increase participants' interest. Lead and manage the team to ensure each member understands their

duties and responsibilities, as well as motivate the team to achieve common goals. Create a comfortable environment so that all committee members can easily carry out their tasks

- Present
